*Development Tools and Technique:* Agile, Jira, Git, CI/CD, SaaS

## TECHNICAL EXPERIENCE/PROJECTS

---

### Olive Platform

2020

Played a key role in the development and deployment of various applications for healthcare customers. Have built numerous apps with >500 users- with one callcenter reporting a -50% decrease in call times as a result, as well as strengthened the application in anticipation of rollout to 80,000 users.

### AlphaSite 001

2020

Assigned to the company's first customer specific location, moving from Columbus, OH to Orange County, CA. Responsible for providing \$10m in annual value to customer through various bots automating every business function for customer, including HR, Supply Chain, and Patient Revenue Services.

## PROFESSIONAL EXPERIENCE

---

### Olive

#### Associate Software Engineer

(August 2021-Present)

Building general use or customer specific applications to run on the Olive Platform application. These applications provide context specific healthcare information to the user at opportune times. Customers reported significant efficiency improvements when using Olive Platform.

#### Software Automation Engineer

(April 2019-August 2021)

RPA Developer utilizing proprietary tools to build bots automating workflows across all business functions for various customers. Responsibilities include: building bots, debugging all areas of workflow, pair programming, code reviews, and training new engineers. Technologies include TypeScript and various JavaScript libraries, xPath, Git, various code repositories, VPN, VM's, and more.

## EDUCATION

---

### Tech Elevator

2019

Attended a 14-week .NET coding bootcamp learning how to develop dynamic web-based software systems using the .NET programming framework.

### The Ohio State University

2014

B.S. In Finance.
